Dear Dave,

It was nice to hear from you and to get another invitation to a Principia event. I'd be glad to try to come to St. Louis a few hours early and do a mid- to late-afternoon event on the 25th of November if that would work out with the Upper and High School program. There is even a chance I may be in downtown St. Louis for a luncheon that day. Presumably that would break up by 2:00. I'm not sure what time the Round Table begins or how great the travel distance is between the St. Louis campus and the locale of the Round Table dinner, but perhaps you could work something out that would keep me from being bored between 2:00 in the afternoon and the beginning of the dinner! I'd be pleased to do it if it could be worked out, but will understand if the schedule isn't flexible enough.

Had a delightful evening with Jane and George and an opportunity to hear Jane read two weekends ago. Pat and I dropped down to the peninsula after our Association in San Francisco on the 9th. I am now looking forward to picking up George and Rusty Williams when they come biking through this area in late September. We've promised them a hot shower and a free meal.

Much appreciate your thoughtfulness in offering an opportunity to relax at your Guest House. I'm much attracted to that and will very much keep it in mind. At the moment, I don't see another opportunity for much free time in the offing.

I, too, was pleased with the print of my talk in the alumni Purpose and have kept the copy Jim sent me in my souvenir box. Don't need another, but thanks.

Pat joins in sending our very best to you and to Helen.

Yours,

STANSFIELD TURNER
